

BETTER INSIGHTS FOR BETTER OUTCOMES

CUSTOM-BUILT STUDENT MANAGEMENT SYSTEMS
FOR PUPIL REFERRAL UNITS, ALTERNATIVE PROVISION
AND SPECIAL SCHOOLS

CHOOSE THE DATA THAT MAKES SENSE FOR YOUR SETTING

No two schools are the same - and that's especially true of specialist education settings where the spectrum of needs is far greater than those found in mainstream settings.

That's why we created IRIS Adapt: the only fully customisable information management system for Pupil Referral Units, alternative provision settings and special schools.

We give you quicker, easier access to important and relevant pupil insights that make sense for your setting. This allows you to better manage pupils' specific needs, improve staff-student relationships, and improve pupil outcomes.

IRIS Adapt gives you the time to focus on what matters most.

"Using IRIS Adapt gives us more time to focus on what the data is showing us, rather than spending time collating and processing the data manually. Our staff report much better time management and safeguarding is significantly improved as under-reporting of incidents is much reduced." **Bridgelea PRU**

WHAT DO YOU WANT TO LEARN ABOUT YOUR PUPILS?

When you choose IRIS Adapt - we can include any type of data capture, but the following types of data are those commonly requested.

BEHAVIOUR

Log and analyse behaviour, RPI, triggers, antecedents and more, quickly and easily via input screens fully customised to your needs.

ACCIDENTS

Log accidents and injuries to both pupils and staff via fully featured accident forms. Identify accident location and time hotspots quickly and easily.

INTERVENTIONS

Monitor the use of physical and other interventions. Track the effectiveness of de-escalation and calming strategies.

MAR

If you routinely administer medication to pupils, we can include a fully featured pupil medication management system.

SAFEGUARDING

Include a secure, restricted access safeguarding log. Have all your pupil data in one comprehensive timeline.

ATTENDANCE

IRIS Adapt includes an attendance register feature for those small independents and Alternative Provision who do not need a full MIS system such as SIMS.

COMMS LOG

Record all significant pupil communication, with parents, other professionals or agencies, quickly and easily. Instantly view all previous communication for a pupil.

WHAT ELSE?

Whatever you need! Notes on pupil meetings, Behaviour Management Plans, Health Care Plans, Positive Handling Plans ... all fully customised to your needs.

WHY DO PRUS, ALTERNATIVE PROVISION SETTINGS AND SPECIAL SCHOOLS CHOOSE US?

DESIGNED FROM SCRATCH FOR YOUR NEEDS

We don't give you a system and tell you what you can and can't do with it. We work closely with every school and setting to build flexible systems from scratch to suit your specific needs. Anything is possible - just tell us and we'll build it for you.

We'll build an adaptable system that aligns to the changing needs of your students and staff, and thanks to our innovative design, the set-up process is quicker and more cost effective than you think.

STRESS-FREE BEHAVIOUR MANAGEMENT PLANNING

Fast, easy sorting and searching of all data. We use multiple levels of secure access for all necessary stakeholders, making it easy to record, edit, review and protect important information and behaviour management plans.

We want you to spend less time with data and planning and have more time with the students themselves. Building positive student relationships is key to success.

VIRTUALLY NO TRAINING REQUIRED - IT REALLY IS SIMPLE

Our fuss-free, easy-to-use interface means it takes no time to get staff on board. Designed to be as intuitive as possible, It Really Is Simple - if you can point and click with a mouse you can find what you need with IRIS Adapt. When you're in your IRIS Adapt system, everything you need to do/see/find can be done in one screen/window so you don't have the hassle of opening multiple windows to track down data and make sense of things.

"We have a rich data source around our children's behaviour. This helps us immensely when we are developing strategies to address a child's behaviour. Also, the data can now readily be shared with other professionals."

Oakdale School

Switch views of your data in a matter of simple clicks to enable lightning fast insight

The screenshot shows the Tally dashboard with a data grid titled 'Trigger(s)' on the y-axis and 'Count' on the x-axis. The grid displays the following data:

Trigger(s)	Count
Boredom	3
Change of routine	5
Demand avoidance	36
Finishing	5
Home	3
Hunger	2
Noise	6
Pupil interaction	30
Sensory	2
Sexual	1
Something unavailable	16
Staff interaction	9
Transition	2
Unknown	7
Waiting / delay	9
Column Totals	136

The dashboard also includes a 'grid options' panel on the left with 'Info' (Mean: 9, Median: 5, Mode: 2, σ: 11) and 'Options' (Include Zero Values, Show Empty Columns, Show Empty Rows, Count, Sum, Average, Percentages).

Reduce narrative forms of reporting to allow for faster inputting and extracting of important information

PUTTING PUPIL REFERRAL UNITS, ALTERNATIVE PROVISION AND SPECIAL SCHOOLS FIRST

IRIS Adapt was specifically created for non-mainstream settings. We allow you to fully customise a very simple-to-use data system to suit your needs - and when those needs change, we make sure your system changes with you.

FULLY CUSTOMISABLE

With IRIS Adapt, customising does not simply mean adding your own options to set menus. Each data capture form on the system is fully customised in terms of layout, content and terminology; we literally start with a blank sheet of paper for you!

SECURE

IRIS Adapt offers all the security features necessary for the safe processing of confidential pupil data - from encrypted connections to user access control and more...

ALERTS AND NOTIFICATIONS

IRIS Adapt is not just a passive database. It has the ability to respond to a host of events and conditions on the system.

WORKFLOW ASSISTANCE

As well as keeping users informed, IRIS Adapt has a number of features designed to facilitate effective workflow for busy teachers.

DATA ALL IN ONE PLACE

Most other systems aimed at schools are built to do a specific job. IRIS Adapt is not only the Swiss Army Knife of pupil data management but in many cases does the job better than the dedicated system.

IN-DEPTH ANALYSIS

IRIS Adapt's built-in point and click analysis tools allow school leaders to interrogate their data in depth. Start with an overview of the whole school then drill right down to track a single behaviour for a single pupil.

WHY DID WE CREATE IRIS ADAPT?

"We wanted to create something that was specifically designed for those settings where the spectrum of needs was far greater than those presented in mainstream settings. We knew that with the right set-up, it would reduce stress on staff, improve staff-pupil relationships, and ultimately improve pupil outcomes. That last bit was key for us."

"After I showed Iris Adapt to my headteacher friends working in PRUs, AP settings and special schools, they immediately wanted it in their settings too"

Ed Whittaker, co-founder, IRIS Adapt

Stop wishing you had a system that just did 'X'... We bring your wishlist to life. Whatever your values, vision and Key Performance Indicators for your setting – we're ready to support you.

Find out what IRIS Adapt could look like in your setting with a no-obligation chat with our team.

If you'd like, we can also arrange a demo of IRIS Adapt to show you the types of features we've included for other PRUs, alternative provision and special schools.
